The Yarlung Zangbo Grand Canyon is one of the most fantastic natural wonders. It's in Tibet, about 400 kilometres away from Lhasa. On a sunny day, you can look down to the bottom of the canyon. There is a silver river thousands of miles below you. It can reach almost 6,000 metres deep. If you look across to both sides of the canyon, it goes far away for more than 500 kilometres. I think it's not just big but huge. The canyon is not only well-known for its depth and length but also famous as home to colourful plants and thousands of animals. So people call it "the Botanical Museum" and "the animal kingdom". In my opinion, it's more wonderful than other places. What do you think of it?

Dear Betty,  
How are you? You said that you wanted to know something about Chinese traditional festivals. Now let me tell you something about the Mid-Autumn Festival.

The Mid-Autumn Festival comes in September or October. It is a festival of good harvest. On the evening of it, the family usually get together and sit around a table outside and enjoy the beautiful moon. The moon looks brighter and rounder. On that day many families have a big dinner. We also eat mooncakes and fruit.

I hope you can come and celebrate the Mid-Autumn Festival with us next year.

Best wishes to you!

#### My First Time Spending Dragon Boat Festival Alone

Everyone has many first-time experiences and so do I. Last year, on the day of Dragon Boat Festival, I went to a river near my town by myself where there was a dragon boat race.

The sun was so bright that day. As soon as I arrived there, I bought a sunhat. Walking by the river was relaxing, but it was a bit crowded. Soon the race started. It was exciting and people cheered loudly for their favourite team. I took lots of photos that day.

Although it was my first time spending Dragon Boat Festival without my family or friends, I never felt lonely and I had great fun.

Recently I made a survey about the use of the electronic schoolbags. You can find out easily what you want to know.

My classmates think that electronic schoolbags are useful, convenient and they have more functions, such as you can listen to music on it. And parents also think the electronic schoolbags are easy to carry and children's backs and necks will not be hurt. But my English teacher doesn't think we should use it, because he thinks they are more expensive.

I suppose/think electronic schoolbags are bad for our eyes and waste energy. In a word, we shouldn't use it more in the future.

#### My Favourite Photo

I'm a student. I am interested in taking photos. The photo which I like best is called the Great Wall. It was taken last autumn.

In my photo, you can get a very clear view of the Great Wall. The Great Wall is thousands of kilometres long, like a huge dragon lying across the mountains.

Visitors always go to see it as soon as they get to Beijing. Because they believe "He who does not reach the Great Wall is not a true man".

The Great Wall has become the symbol of China. I like this photo very much because it shows the size and the beauty of the Great Wall perfectly.

#### The Photo I Like Best

This photo was taken by my mother a few years ago. In the photo, my father and I were flying a kite happily. But before that, everything was different! Dad was busy working every day and he had little time to stay with me. One day, with tears in my eyes, I begged, "Daddy, would you please fly a kite with us today?" Dad was very surprised and agreed. Things have changed ever since. Yeah, I like this photo best, because it tells us that there's more to life than work.

Today Emperor Qin's tomb is one of the most important sites in China, second only to the Great Wall.

When Qin Shihuang died, he had his workmen create thousands of soldiers made of Terracotta. These workmen also made horses. All of these were buried in the earth perhaps to protect the emperor in life after death.

This tomb was hidden for centuries until a farmer found it in 1974 in Xi'an when he tried to dig a well. More than 7,000 warriors were discovered.

A museum may be a good place to keep old and beautiful things, or a place to learn about science. And it may also be a place to find out about arts or animals.

Indianapolis has a Children's Museum. Children do not have to pay to enter it. They can see white bears ten feet tall. On Saturdays, they can hear talks about animals and trees. And the Bata Shoe Museum is in Canada. It has collected a lot of shoes over 10,000 pairs! This museum opens every day except Monday. On Thursday, it is opened from 10 am to 8 pm. Second, you can make plans for your everyday life. After you study for about two hours, you can take a walk outside and try to relax. Besides, don't stay up late. It's not good for your health.

Third, never argue with your parents. You should understand them and spend some time communicating with them. Discuss your problems with them and tell them your ideas. They will help you find better ways to solve them.

In a word, you will have a happier life with less pressure as long as you study hard and often talk with your parents.

Yours,  
 Nancy

We have been in Australia for three days. We're having a good time here. Australia is the sixth largest country in the world. There is so much to see that it is impossible for me to tell you everything. Sydney is a beautiful city. There are many big trees and beautiful flowers around the houses and they look really beautiful. There are also some special animals in Australia, such as kangaroos and koalas. They are

really lovely.

During the past three days, we've visited many places of interest around Sydney. I'd like to spend more time here, but we will fly to another city, Cairns, to see coral beds tomorrow. It is said that words cannot describe the beauty of the colourful corals. Many famous cartoon films were made there. Now we are busy packing our bags so that we will not lose time when we leave. We can enjoy ourselves in Cairns tomorrow. I'm looking forward to going there.

## My Trip to Qingdao

I had a two-day trip to Qingdao with my friends last summer vacation. We had a wonderful time there.

We went to Qingdao by train. When we got there in the afternoon, we couldn't wait to go to the beach near our hotel. The weather was nice. Everything was as beautiful as I imagined. We walked along the beach and enjoyed the soft sand, the gentle wind and the blue sea. In the evening, we had a big seafood dinner. It was really delicious.

The next morning, we went to Mount Laoshan. It's not very high, but there is an old and interesting tale about it. So it attracts a lot of visitors every year.

I enjoyed this trip so much that I didn't want to go back home.

What do you think of listening to music at this time? Music can help you be more active. And listening to music can help you relax. It's true that we can learn better when we're relaxed. Music can help you forget all the problems. So it's really helpful for your next class. You and your classmates must be very happy to hear your favourite music. You can sing and dance to music. Scientists believe that the sound of Western classical music makes people feel richer. Fast music makes people do things faster. Isn't that interesting? ### Saving the Earth

As time goes by, man is making the earth sick. People cut down too many trees and leave rubbish everywhere. Factories let out their waste into the environment without doing anything to make it harmless. These have caused some serious problems. For example, the land is becoming sandy, the river is dirty, the air is less clean and the temperature of the earth is rising. So the earth is shouting for help.

What shall we do to save the earth? My suggestion is that we should plant more trees, stop factories from letting out their waste directly into the air or rivers. All in all, we have only one earth, we should do everything to protect it, or we will regret.

#### My Dream

I'm a middle school student now. When I grow up, I'm going to be a reporter. Because being a reporter is cool. Besides, my favourite subject is Chinese and I'm good at it too.

How can I make my dream come true? Firstly, I'm going to study Chinese harder by taking writing lessons and practising writing articles. Secondly, if my articles are great, I will send them to magazines and newspapers. Lastly, I will never give up when I meet difficulties.

Where there is a will, there is a way. I'm sure my dream will come true one day.
